About Me

Ambitious and dedicated entry-level professional pursuing opportunities to gain hands-on experience. Eager to contribute, learn, and thrive in a collaborative work environment

Experience

CapperSoft

Mar 2022 - Jun 2022

Data Analyst

At Cappersoft, I played a vital role as a Data Analyst, specializing in data verification and Optical Character Recognition (OCR) tasks. Responsible for ensuring data accuracy, I conducted meticulous reviews, identifying and rectifying discrepancies to maintain a high standard of precision.

Education

Superior University

Apr 2021 - Present

Bachelor of Computer Science

Punjab College

Mar 2018 - Jan 2020

Intermediate in Computer Science

Projects

ConjuScan

Nov 2023 - Jan 2024

As a collaborative effort with a proficient team, I led the development of a groundbreaking mobile application aimed at revolutionizing eye health diagnostics. The project focused on leveraging advanced AI technology to provide a user-friendly solution for the early detection of pink eye.
